Access to my own car**

PROFILE

I'm a multidisciplinary designer, specialising in 3D printing, digital modelling, and hands-on prototyping. Passionate about bringing ideas to life through making and design. Eager to apply creative and technical skills in the art department of film and TV productions.

EXPERIENCE

Small Business Owner

Asteri Studios

2020-Present

Beginning as a handmade crochet clothing brand and evolved into a business specialising in 3D-printed, novelty yarn holders for crafters. As the sole employee, I've managed all aspects of running a product-based business, from concept and design through to marketing and customer relations.

Marketing Campaign Creator

Super Looper

2023

At university, I worked on a marketing campaign for a baby clothing rental service promoting sustainability through upcycling. This gave me experience in campaign planning, creative problem-solving, and communicating a message to a target audience.

EDUCATION

Bsc (Hons) Product Design

University of Brighton

2020-2023

Learned the full design process from concept sketching to working prototypes, combining creativity with technical making skills.

A-Levels

Llanishen High School

2018-2020

Maths - A*, Product Design - A*, ICT - A

SKILLS

2D Software

- Illustrator
- Photoshop
- Procreate
- Canva

3D Software

- Fusion 360
- Blender
- Nomad Sculpt
- Prusa Slicer

Physical

- 3D printing
- Card modelling
- Foam modelling
- Textiles

Personal

- Time management
- Teamwork
- Adaptability
- Communication

INTERESTS

I love learning and creating in different ways, from reading personal development books to exploring new craft projects. I enjoy watching behind-the-scenes videos on films and TV shows to learn about production processes.

LANGUAGE

English is my first language. I achieved an A in GCSE Welsh and am currently refreshing my Welsh skills using Duolingo.

I consent to my personal data being stored and shared for recruitment purposes in accordance with UK GDPR.
